

How to create a Wallcovering

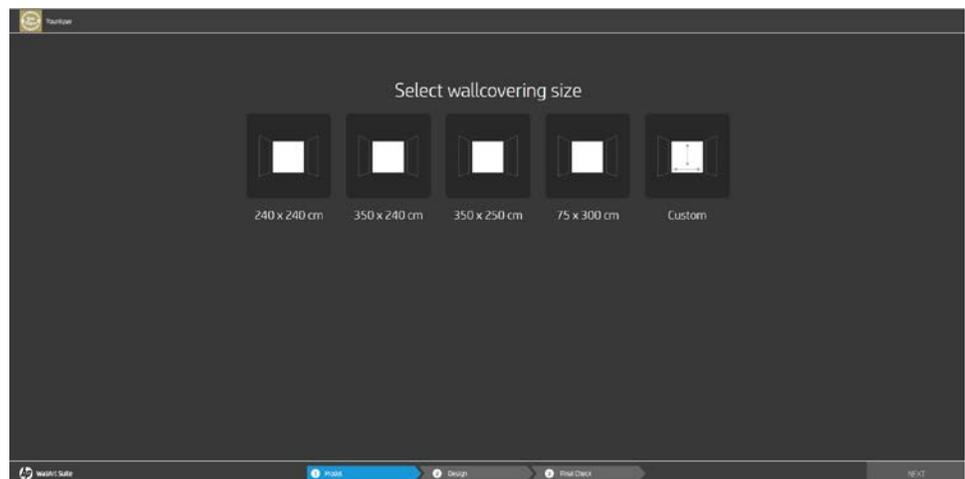

Table of Contents

Start HP Applications Center Wallcovering app	2
Designing your Wallpaper	2
Using personal pictures or image banks	3
How to change media	4
Augmented Reality	4
Submit your order	5

Click on Wallcovering app to start designing

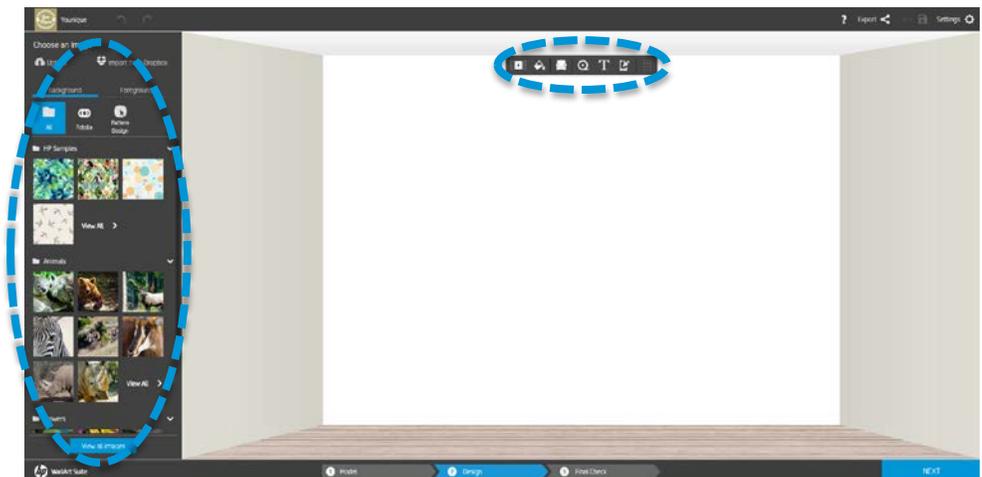

Select Banner size (wether it is a preset or a custom size)

On the left you have the content, and in the central you can see the wal that it's being designed.

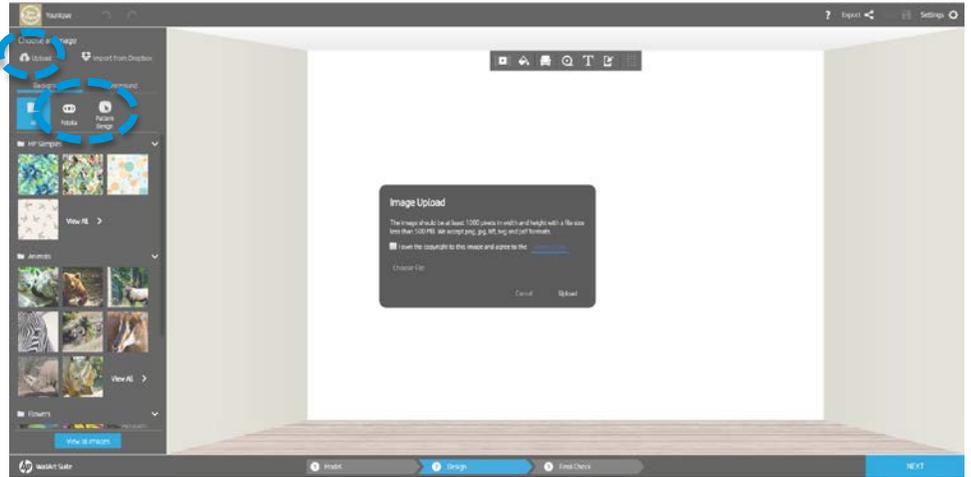

Also you have toolbars on top, which will allow you to:

- Do multiwalls designs
- Change the color of side walls
- Add furniture and fixtures
- Change media type
- Add text
- Add Augmented Reality

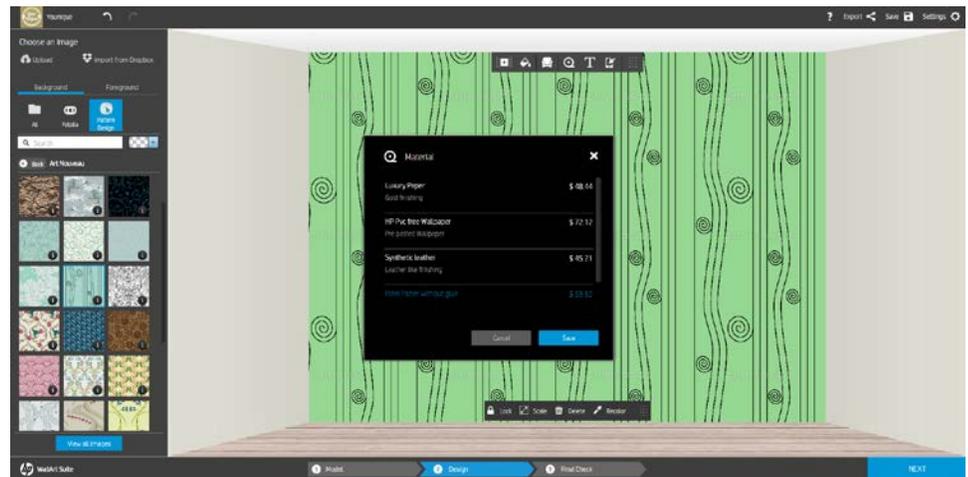

You can upload your own images using the *Upload* option, or use image banks using the proper tabs.

Take into account that you will need to activate those accounts first in the Backend

You can change the substrate type using the appropriate tool, or in the final check

Click on augmented reality

Change icon color

Open Google chrome

You tube

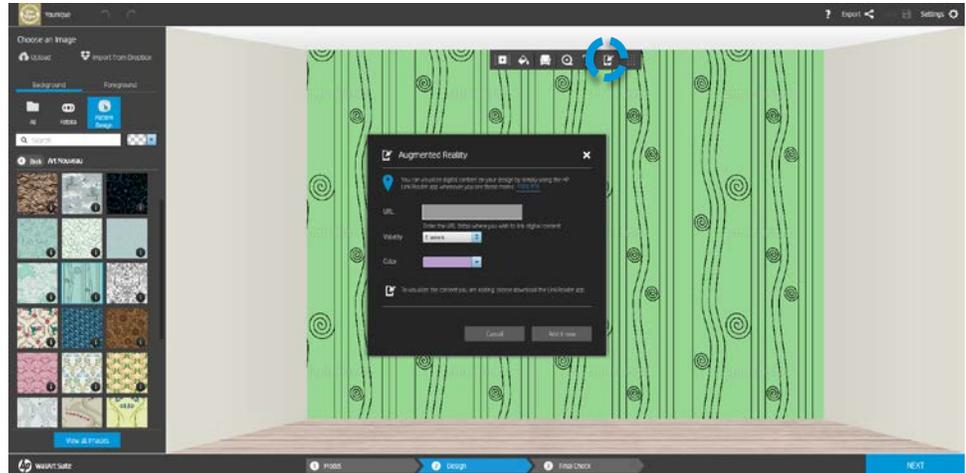

Look for suitable video

Download Link reader in your smartphone

Show the app.

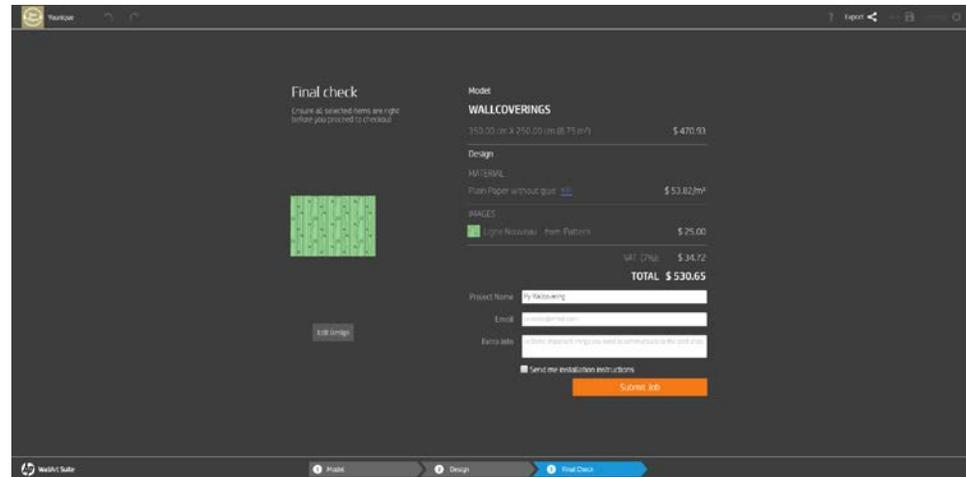

Customers just need to point on the icon and the Link Reader app will run the video

Or you're decorating you corporate office you can link official company video or website

In the final check, you will see the total price of your order and other details before you place it.

You can also enter additional comments or request installation instructions.

Thank You!

Your order **211147** was successfully submitted.

You'll receive an email with your order details and a link to visualize your design.

Younique will contact you for any details.

We recommend you to contact your Print Shop at the following address in order to follow up with your design.
